GP-2

Graduation Project Proposal/Approv	Graduation	<b>Project</b>	Proposal/A	Approva
------------------------------------	------------	----------------	------------	---------

The Graduation Project Proposal must be submitted and approved by the student's faculty advisor, a parent/guardian, and an Advisory Committee Member. This proposal must be submitted in letter form and address each of the following questions (Please attach the letter to the back of this form.):

- Describe the topic/area which will serve as the basis for your project?
- Why are you interested in this topic?
- Have you had any previous experience(s) related to this topic? If so, what were they?
- What kind of product do you propose to present with your research and/or how will you complete your required hours?
- How will your project demonstrate global readiness including 21<sup>st</sup> Century Skills (e.g. entrepreneurship self-enrichment, job shadowing/career explorations, volunteerism, physical product, etc.)?

I have discussed with my parent/guardian the responsibilities associated with the Graduation Project. My parents/guardians are aware that this will require work outside the school setting. They are also aware that I will be working on four distinct components for the Graduation Project: a research paper, a product, a portfolio, and a presentation. By signing below, my parent/guardian approves of my Graduation Project Proposal which is attached to this form.
